SOFTWARE FEATURES!

My Workforce – Provides a quick graphical summary of your company's pay period totals, employees, labor history and handy reminders all on one screen. This "launch pad" also allows you to link directly to current employee timecards for review and edits to save time and provide visual aids in managing your labor costs. Quickly see who has punched in and is "on-site".

Report Manager - EZ Report Manager allows you to run customized reports, export data, print, save, and email reports. You also have the ability to customize your reports by changing the fonts, changing how columns sort, adding-deleting-resizing-moving columns, and changing the data that appears in the report.

SIMPLY THE MOST AFFORDABLE AUTOMATED TIME CLOCK SYSTEM AVAILABLE TODAY.

- Eliminates the use of paper time cards and time sheets.
- Calculates regular and overtime hours automatically.
- Enforces payroll and attendance rules fairly and impartially.

THE TIME CLOCK FOR THE 21ST CENTURY!

This automated time and attendance system offers big business efficiency at a small business price. Designed for small businesses with up to 50 employees*, Lathem's PayClock EZ automatically calculates total worked hours including overtime. The system consists of an attractive badge reader terminal and easy-to-use Windows® based time and attendance software. Employees punch in and out at the terminal with reusable credit card style badges rather than time cards. Payroll data can be printed to reports from your PC or interfaced directly into your payroll software. Standard payroll interfaces include ADP®, Paychex®, QuickBooks® PRO and more. Kit includes everything you need to get started!
