

Time and Attendance Made Simple... and Smart!

***uAttend***<sup>TM</sup>  
*Employee Management System*

by **PROCESSINGPOINT**

## **uAttend – Revolutionizing Time & Attendance for Small Business**

The uAttend Employee Management System by ProcessingPoint redefines how small businesses handle time and attendance. More and more, small businesses are seeking out affordable web-based solutions for business needs. The uAttend system is the first product in the time and attendance category to deliver what small businesses demand: low upfront fees, easy-to-use service, and universal access. Unlike traditional solutions, uAttend is:

- Extremely Affordable – 65 to 80% LESS than the competition.
- Plug 'n Play – No software to install, cables to run, devices to configure.
- Simple – All the power a small business needs, no clutter or waste.
- Available – Access and use employee data anywhere, any time.
- Expandable – Unlimited employees, unlimited devices.

## Step 1.

Employees punch in or out from a uAttend Timeclock and/or website or phone.

## Step 2.

A screenshot of a web browser displaying the uAttend interface. The page title is 'Tommy's TV - Main Group' and the date is 'Sat Nov 18 2009 - 11:11AM HKT'. The interface includes navigation tabs for Home, Groups, Departments, Supervisors, Employees, Timecards, Summaries, and Who's In. The main content area shows a timecard for 'Tommy's TV' for the period 11/18/09 - 11/21/09. The table below lists employee activity for each day.

DATE	DEPT	IN	OUT	REG	OT1	OT2	VAC	HOL	SEC	OTH	TOTAL
SUN 11/15/09	SALES	12:05PM	3:05PM								EDIT (+)
SUN 11/15/09	SALES	12:05PM	3:05PM								EDIT (+)
MON 11/16/09	SALES	12:05PM	3:05PM								EDIT (+)
MON 11/16/09	SALES	12:05PM	3:05PM								EDIT (+)
MON 11/16/09	SALES	12:05PM	3:05PM								EDIT (+)
TUE 11/16/09	SALES	12:05PM	3:05PM								EDIT (+)
TUE 11/16/09	SALES	12:05PM	3:05PM								EDIT (+)
TUE 11/16/09	SALES	12:05PM	3:05PM								EDIT (+)
TUE 11/16/09	SALES	12:05PM	3:05PM								EDIT (+)
TUE 11/16/09	SALES	12:05PM	3:05PM								EDIT (+)
TUE 11/16/09	SALES	12:05PM	3:05PM								EDIT (+)

Managers login to website to view hours, run reports, make changes and manage system.

## Step 3.

All data is available to export to your payroll company or to run internal payroll.

Unlike a traditional time clock that is tethered to a computer and client based software, uAttend uses cloud computing to allow business owners the flexibility of doing time and attendance anywhere and any time. Additionally, the system allows extreme flexibility, letting employees “punch” in and out from a time clock, web-browser, or phone. Unlike other systems, all the punch data, no matter what the source, is aggregated online for easy editing and reconciliation. There is no need to network together different solutions for different employee types and access a single client based computer for time and attendance.

## CB1000

*MSRP \$99.99*

Free Lifetime Replacements
